مجموعة ألفا الاستشارية
Alpha Consulting Group

We at Alpha Consulting Group are pleased to provide you with a brief overview of the firm, the services we provide, and our team. We hope that our firm will meet your business needs.

Introduction

alpha

• OUR STORY

Alpha Consulting Group is a leading Saudi professional company specializing in integrated quality consultancy and professional services in the financial and accounting fields to the business sector.

Alpha Consulting was established in the Kingdom of Saudi Arabia in 2014 and provided limited financial and accounting consultant services. In 2021, we acquired Almofadda CPAs & Consultants Company and Alpha Valuation Company. These acquisitions created a new chapter for providing integrated financial and accounting services.

This Group has become one of the most distinguished professional and consulting enterprises in the region by providing a wide range of quality advisory and professional services. The Group has more than ten licenses in various fields including accounting, auditing, valuation, and zakat and tax consultancy.

Our team includes qualified and diverse professionals who have extensive experience in providing integrated consulting and professional services both within and outside of the Kingdom of Saudi Arabia.

We are proud of what we have achieved for our clients, past and present,

and strive to win the trust of new clients to help them achieve their goals through ambitious strategic relationships.

- **OUR VISION**

To become the professional partners for many businesses by providing quality consulting services in the financial and accounting fields in the Kingdom of Saudi Arabia.

- **OUR MESSAGE**

We work to provide integrated consulting and professional services in the financial and accounting fields. Our experienced and passionate teams strive to provide excellent quality for all clients while building long-term partnerships. We are continuously improving and streamlining our operation while also remaining flexible to accommodate clients of all backgrounds.

- **OUR TARGET**

Changing for the best.

- **OUR OBJECTIVES**

- Achieving overall excellence in all our services.
- Add value and positively impact our clients' work and allow them to achieve their goals.
- Growing alongside our partners.
- Achieving sustainable personal and professional goals for our consultants by providing a stimulating and attractive working environment.
- Ensuring professionalism and quality in all our activities to build a stellar reputation that matches our level of service.
- Build and strengthen a professional relationship with our consultants, business partners, clients, employees, the community, and all other stakeholders.

- **OUR VALUES**

- Provide outstanding services.
- Create effective partnerships.
- Maintain professional ethics.
- Build and maintain a strong reputation.

- **OUR PHILOSOPHY**

- Implement appropriate technology and build databases to streamline our operation.
- Work in accordance with best practices.
- Work quickly and efficiently while paying close attention to detail.
- Hire staff who will work effectively with our clients.
- Create a flexible and caring work environment that cares for our employees.
- Provide ongoing customer support.

Accounting & Auditing

M&A teams leverage our market knowledge for in-depth research on a potential target's business capabilities across different functional areas & benchmarking with peers.

Raising capital can be a challenging "adventure" unless you are expert in the various kinds of financings and have access to an array of capital sources

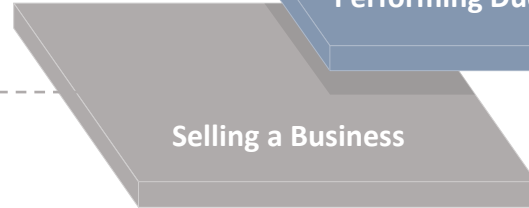

Selling a company is one of the most serious decisions business owners will make during their lifetime. We guide our clients throughout selling process

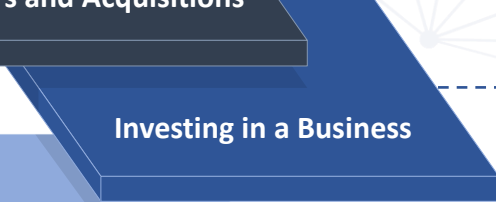

Mergers and Acquisitions

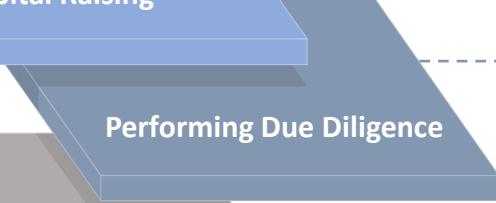

Capital Raising

Selling a Business

Investing in a Business

Performing Due Diligence

Enabling strategic portfolio management and better divestments that help you improve value from the sale of an entire company, carve-out, spin-off or joint venture.

Due diligence is a precautionary process that reduces transaction risk by collecting and analyzing the material facts of the other party in a business transaction. This enables buyers, investors, lenders, partners and other potential stakeholders to a transaction to fully assess the risk of a transaction.

Business Valuation

Business valuation is a general process of determining the economic value of a whole business or company unit.

Valuation Standards

Our Valuation is in consistent with The International Valuation Standards (IVS)

Valuation Methods

There are three main valuation methods used by industry practitioners:

- (1) Income Approach
- (2) Market Approach
- (3) Cost Approach

Reasons for a Business Valuation

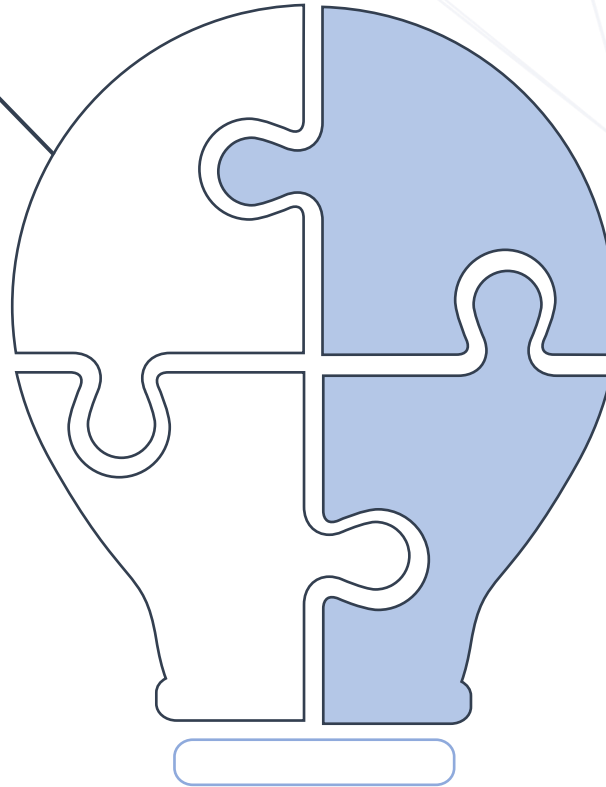

Business valuation can be done for Exit Strategy Planning, Buy/Sell Agreements, Shareholder or Partnership Disputes, Mergers and Acquisitions, Funding, Litigation Support and many other reasons.

Corporate Valuation

Justifying the value of assets and liabilities has grown more complex and critical for most businesses. Our experienced professionals bring excellence in accounting, taxation and financial due diligence, providing integrated solutions that help clients make better quality decisions around value

Intangible Assets Valuation

- Intangible assets is a non-physical assets such as franchises, trademarks, patents, copyrights, goodwill, equities, mineral rights, securities and contracts (as distinguished from physical assets) that grant rights and privileges and have value for the owner.
- Valued assets such as patent license agreements and technology using 'RFR' and 'MPEEM' methods.
- Intangible assets valuation includes assessed contribution of each entity to the overall Intellectual Property (IP) and recommended an Equity stake consideration to the board.

Accounting and Auditing

Building accounting systems within the company, starting from its accounting and documentary cycles, its accounting policies and procedures, and choosing the most appropriate accounting software tool including chart of accounts and cost centers

Performing agreed-upon procedures relating to financial information (IFRS 4400) which are procedures agreed between an entity and a third party to produce factual findings about financial information or operational processes. Including measuring **Local Content Score** and other local content services

Internal auditing is an independent, objective assurance and consulting activity designed to add value to and improve an organization's operations

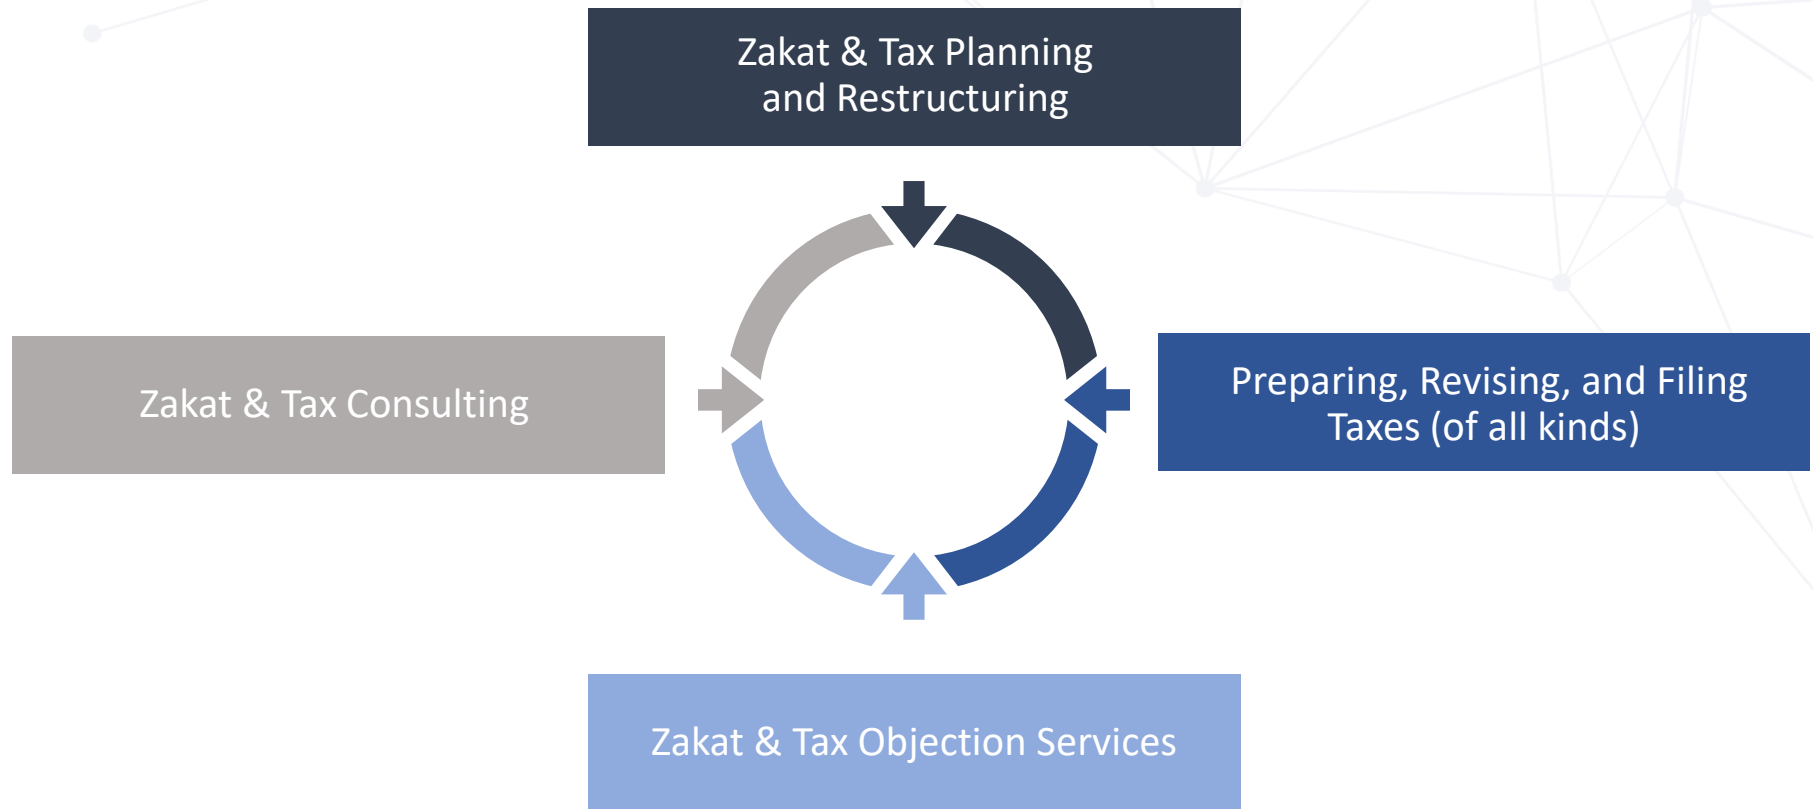

Developing and maintaining a company's overall financial processes by providing a professional bookkeeper

A main pillar for monetary control is making regular budgeting for expenditures, cash flows, and others. Also, each entity has a specific reports that management needs to help for decision making
